If, for any reason the street number of a particular building is not readily identifiable by posted signage along the roadway whether due to the proximity of multiple buildings with different street numbers or some other reason, the street number should be affixed to the building as well as posted by the road. Similarly, if a single building has multiple street numbers or apartment numbers such as professional buildings or apartments, a building directory should be posted at the main entrance of the building.

C. In the event the structure/property owners or occupants or possessors fail or refuse to take action in accordance with the notices and an order issued pursuant to this Part, the Borough Council may provide the signage, as necessary, in order to bring the structure/property owner into compliance with the standards promulgated in this Part. The Borough may recover the cost of materials and labor for the purchase and installation of signage from the structure/property owners, occupants or possessors reasonable administrative fees, interest or other charges allowed by law.
