INSTITUTIONAL ESTABLISHMENT - any establishment engaged in service to persons including, but not limited to, hospitals, nursing homes, orphanages, schools, and universities.

MANAGEMENT - the entire process or any part thereof, of storage, collection, transportation, processing, treatment, and disposal of municipal wastes by any person engaging in such process.

MUNICIPAL WASTE - any garbage, refuse, industrial lunchroom or office waste and other material including solid, liquid, semisolid or contained gaseous material resulting from operation of residential, municipal, commercial or industrial establishments and from community activities and any sludge not meeting the definition of residual or hazardous waste as defined in the Pennsylvania Solid Waste Management Act (35 P.S. §6018.101 et seq.) from a municipal, commercial or institutional water supply treatment plant, waste water treatment plant, or air pollution control facility.

PERSON - any individual, partnership, corporation, association, institution, cooperative enterprise, municipal authority, Federal government or agency, State institution and agency, or any other legal entity whatsoever which is recognized by law as the subject of rights and duties.

REGULAR - at least two (2) or more times per month.

REFUSE - all materials which are discarded as useless.

RESIDUAL WASTE - any garbage, refuse, other discarded material or other waste including solid, liquid, semisolid, or contained gaseous materials resulting from industrial, mining and agricultural operations and any sludge from an industrial, mining or agricultural water supply treatment facility, waste water treatment facility or air pollution control facility, provided that it is not hazardous. The term "residual waste" shall not include coal refuse as defined in the "Coal Refuse Disposal Control Act." "Residual Waste" shall not include treatment sludges from coal mine drainage treatment plants, disposal of which is being carried on pursuant to and in compliance with a valid permit issued pursuant to the "The Clean Streams Law."

SOLID WASTE - any waste, including but not limited to, municipal, residual or hazardous wastes, including solid, liquid, semisolid or contained gaseous materials.
